

Orca3D training Workshop @ NDAR, Antibes, 29-31 August 2017

A 3-day Orca3D training Workshop will be held in our offices on 29-31 August 2017.

The instructor is Stéphane DARDEL, naval architect. The course will be held in English, and other languages will be supported (French, Italian).

The workshop is intended for naval architects and ship and boat designers, with a good knowledge of Rhino3D. Syllabus covers:

- ✓ Rhino v5 user interface and customization
- ✓ Foundations of modelling and fairing techniques
- ✓ Hull assistant
- ✓ Background bitmap
- ✓ Surface creation and modification
- ✓ Point control
- ✓ Surface analysis
- ✓ Hydrostatic calculations
- ✓ Real-time hydrostatics
- ✓ Stability with criteria verification

Course fees are 650€ / day, lunch will be provided. Advance payment of the fee is required to confirm registration. A minimum of 2 registered attendees is requested to maintain the course.

10% DISCOUNT FOR EARLY BIRD REGISTRATION

Register **before 29 July 2017** and benefit of a 10% discount on the course fees.

Registration will be accepted on a first come first served basis, places are limited.

Participants should have Rhino3D v5 (latest service pack) and Orca3D latest Release (v1.3) or WIP installed on their laptops. In terms of hardware, any modern laptop or netbook will run Rhino5/ Orca3D comfortably in the context of the training course.

For more information or logistics questions, please contact ndar@ndar.com.

Looking forward to seeing you at the course,

Stéphane DARDEL
