

Dear all,

A 3-day GHS advanced workshop will be held at NDAR in Antibes, France, on 12-14 November 2019.

The instructor is Stéphane DARDEL, Naval Architect. The course will be held in English. French and Italian will be supported.

This training workshop is intended for GHS users with a good knowledge of the software, and understanding of hydrostatics and stability principles.

The materials covered include:

- ✓ **Probabilistic** stability with the DAMSTAB2 wizard
- ✓ Advanced run files and library files including:
 - Macros
 - User and System variables
 - Custom tables and graphs
 - TEMPLATE command
- ✓ Intro to Seakeeping

Course fees are 750€ / day, lunch will be provided. Advance payment of the fee is required to confirm registration. A minimum of 2 registered attendees is requested to maintain the course.

A GHS license will be provided during the course free of charge, and participants should bring their laptops (any modern laptop will run GHS comfortably in the context of the training course).

Advance payment of the fee is required to confirm registration.

Registration will be accepted on a first come first served basis, places are limited.

For more information or logistics questions, please contact ndar@ndar.com.

Looking forward to seeing you at the course,

Stéphane DARDEL
