

**MAESTRO training @ NDAR: modeling and basic analysis. Antibes, 29-31 October 2019**

A 3-day MAESTRO training workshop will be held in our offices on 29-31 October 2019.

The instructor is Stéphane DARDEL, NA. The course will be held in English, and other languages will be supported (French, Italian).

The course is for beginners and intermediate users. The materials covered include:

- ✓ Modeling environment and GUI
- ✓ Modeling, element types
- ✓ Integrity checks
- ✓ Groups, tanks, loading the model.
- ✓ NAPA and GHS interfaces
- ✓ Nastran interface
- ✓ Hydrostatic balance and inertia relief
- ✓ Restraints
- ✓ Basic analysis: deformation & stresses
- ✓ Basic analysis: limit state evaluation
- ✓ Fine mesh analysis
- ✓ Introduction to MAESTRO-WAVE
- ✓ Introduction to Optimization

Course fees are 750€ / day, lunch will be provided. Advance payment of the fee is required to confirm registration. A minimum of 2 registered attendees is requested to maintain the course. Registration will be accepted on a first come first served basis, places are limited.

A MAESTRO license will be provided during the course free of charge, and participants should bring their laptops (any modern laptop or netbook will run MAESTRO comfortably in the context of the training course).

It is encouraged that participants bring their own plans and drawings in order to work hands-on their own projects.

For more information or logistics questions, please contact [ndar@ndar.com](mailto:ndar@ndar.com).

Looking forward to seeing you at the course,
