

Orca3D training Worskhop @ NDAR, Antibes, 11-13 September 2018

A 3-day Orca3D training Workshop will be held in our office on 11-13 September 2018.

The instructor is Stéphane DARDEL, naval architect. The course will be held in English, and other languages will be supported (French, Italian).

The workshop is intended for naval architects and ship and boat designers, with a good knowledge of Rhino3D. Syllabus covers:

- ✓ Rhino3D user interface and customization
- ✓ NURBS Theory
- ✓ Foundations of modeling and fairing techniques
- ✓ Hull assistants
- ✓ Surface creation and modification
- ✓ Point control
- ✓ Surface analysis
- ✓ Hydrostatic calculations
- ✓ Stability with criteria verification

Course fees are 1,950€ for the 3 days, lunch will be provided. Advance payment of the fee is required to confirm registration.

A minimum of 2 registered attendees is requested to maintain the course.

Registration will be accepted on a first come first served basis, places are limited.

Participants should have Rhino3D v5 (latest service pack) and Orca3D latest Release (v1.3.6) or WIP installed on their laptops. In terms of hardware, any modern laptop or netbook will run Rhino5/ Orca3D comfortably in the context of the training course.

For more information or logistics questions, please contact ndar@ndar.com.

Looking forward to seeing you at the course,

Stéphane DARDEL
