

ShipConstructor – Advanced Tools – 23-25 March 2015, Lisbon, Portugal

The Advanced Tools covers the advanced features in the Structural modules plus weld management, equipment, marine drafting, publisher LT and NC-Pyros.

Who shall attend?

The Advanced Tools is aimed to medium / proficient users and everybody looking for an update from previous versions or to get to know some of the new modules. It is recommended that you have undergone the Structure Modeling training or that you are already a medium / proficient user in the structural modules.
